

How Move Free works between visits

A simple way to share how you are doing with your therapist.

1

Open your plan

Use your invitation to sign in. Open Today to see the program your therapist assigned.

2

Move at your pace

Follow your plan. Tell us whether you completed, partly completed, or skipped each exercise.

3

Share how it felt

Choose Better, Same, or Worse. Add pain, difficulty, or a short note when it helps. Tap Finish to send.

4

Your therapist reviews

Your therapist can review your feedback and decide whether your plan needs a change.

5

Check for your update

Open Today or Care while connected to see your therapist's guidance. Check Program for your current exercises.

Your therapist reviews updates during their usual working hours. Move Free is not monitored continuously. For time-sensitive concerns, contact your clinic directly.

Stay connected to send feedback and see the latest plan. Home-screen installation is optional.
